Reminder:

1. Upon receiving the admission ticket, please verify your personal information, ensuring it matches the identification document used for registration. Inconsistent information will result in being unable to take the test.
2. Make ensure that your software and hardware setup meets the technical requirements for CSCA Home-based, including the primary device, the secondary device, network connection and room setup, to ensure a smooth testing experience. For detailed specifications and instructions, see the CSCA Home-based Test Candidate Guide.
3. Before the test, you must complete the following two steps: During December 13-17, 13:00-21:00 (Beijing Time): Download the test software, sign in, and complete the Home-based Equipment Check; On December 18, 20:00-21:00 (Beijing Time): Join the Home-based Proctored Mock Test. The system opens at 18:30; sign in as early as possible and stay online for the full mock test.
4. **Note:** On December 21, the exam system opens 45 minutes prior to the scheduled test start time. Sign in when the system opens and complete all check-in steps (device, facial recognition, ID verification) no later than 5 minutes before the start time. **Important:** Late candidates cannot enter after the test begins, and early submission or exit is not permitted before the scheduled end time.
5. On test day, follow proctor instructions to complete identity verification and environment check. Failure to pass verification or refusal to cooperate will not be able to proceed to the test.
6. Follow all test rules and work independently under continuous monitoring. The use of any unauthorized electronic devices, reference materials, or AI tools is strictly prohibited. Impersonation, cheating, and test content disclosure may result in score cancellation, bans on future testing, and other serious consequences.
