01. SCHOOL INTRODUCTION

Opening Letter to Prospective Students

In this season full of vitality, you are about to stand at a turning point in life and open a new chapter. Leaving the past behind, facing new challenges, and becoming a better version of yourself — that is the direction of your effort during your studies, and also the fundamental responsibility and mission of Guangdong Lingnan Modern Technician College.

Mencius said: "To obtain the best talents from all over the world and educate them is the third happiness." We always take shaping excellent talents for society as the starting point and destination of our educational mission. We actively collaborate with enterprises such as JD.com, Huawei, Siemens, Midea, and others to explore campus-industry integration, sign cooperation agreements with multiple overseas institutions, and jointly develop international education projects. We have already trained more than 60,000 highly skilled professionals for society.

Welcome to join us. Study and grow on the campus of Guangdong Lingnan Modern Technician College, master professional skills, sharpen your strong will, and become a brand-new self after three years. From here, step into society, move towards success, and forge a brilliant life. The school will work hard together with you, writing a beautiful future for you as the younger generation and for Guangdong Lingnan Modern Technician College.

About the College

Guangdong Lingnan Modern Technician College was founded in June 2005. It is a full-time technician college approved by the Guangdong Provincial Department of Human Resources and Social Security, a key vocational education school developed by the Guangzhou Lingnan Education Group, and a National High-Skilled Talent Training Base.

The college is oriented towards the Greater Bay Area industrial development plan and the demand for skilled talents under the new normal. It is a comprehensive skilled talent training base that integrates academic education, vocational training, technician research, competition training, skills assessment, employment services, and entrepreneurship incubation.

After 20 years of development, the school has explored the educational model of "production-education integration, campus-enterprise cooperation, study-work combination, and knowledge-practice integration." It currently has industry colleges co-built with JD.com, Huawei, and Siemens, and maintains deep production integration with Xpeng Motors, Midea, Fuhuai, Bandao Group, Aofei Animation, and other enterprises.

The school has been repeatedly awarded "National Leading Unit of Private Vocational Education," "Advanced Collective in Vocational Technology Education Work of Guangdong Province," "Excellent Scientific Research Unit of the China Association of Vocational Education and Training," and other honors.

03. CHARACTERISTICS & HONOURS

Serving Industry

- Built "Lingnan & Huawei Industry College"
- Built "Lingnan & JD Digital Commerce Industry College"
- Built "Lingnan & Siemens Intelligent Manufacturing Industry College"

Study-Work Integration

- Selected as a Phase 2 national study-work integration construction school
- 3 programs selected into Phase 2 national study-work integration programs
- Lingnan-JD Digital Commerce Industry College officially in operation

Diverse Training

- 2020: Provincial vocational skills level assessment pilot school
- 2021: First batch of Guangdong Provincial social training evaluation organization
- 2023: Guangdong 'Cantonese Chef' training base
- 2023: National High-Skilled Talent Training Base
- 2024: Guangzhou Veterans Education Training Demonstration Base
- 2024: Guangdong Province Digital Literacy & Skills Training Base

Ethics & Skills

- Oriented towards Greater Bay Area industrial development and new-normal skilled talent demands
- 8 faculties, 38 programs, over 17,000 enrolled students

International Education

- Top 1% nationally in number of international projects among similar schools
- Direct connections bridged with 12 countries
- School with full English, Japanese, and Korean curriculum output
- TOP 1 in number of students in international specialty fields

Research & Teaching Achievements

- In the past 5 years: 784 awards in education achievements, 331 awards in skills competitions
- Nursing program rated as Key Program of Guangdong Provincial Technician Schools
- Fire Engineering Technology program rated "Quality Cultivation Program of Guangdong Provincial Technician Schools"

Quality Employment

- In the past 3 years: 100+ deep campus-enterprise cooperation units, 1,000+ off-campus professional practice bases
- Developed the distinctive Lingnan "1589" Employment Service System

Social Responsibility

- "Huangpu-Sandu Ethnic Technician Class": 8 consecutive years, trained 335 registered poverty-relief students
- Advanced vocational skills training classes for intellectually disabled youth
- 8 consecutive years of volunteer service at Huangpu Marathon

Key Milestones

2025

- Lingnan & Huawei Industry College officially established
- Lingnan & Siemens Intelligent Manufacturing Industry College officially established
- Co-built "Greater Bay Area Copyright Talent Training College"
- Guangdong Lingnan Modern Technician College 20th Anniversary Development Conference held

2024

- Fire Engineering Technology rated "Guangdong Provincial Quality Cultivation Program"

2023

- "Lingnan & JD Digital Commerce Industry College" officially unveiled
- "Huangpu-Sandu Ethnic Technician Class" won 2023 Dream Builder Public Welfare Award

2022

- Health & Nursing College Nursing Program rated "Guangdong Provincial Key Program"

2020

- Guangdong Province vocational skills level recognition pilot unit

2019

- Approved by Guangdong Province Government, upgraded to Technician College
- E-Commerce program rated "2019 Guangdong Province School Featured Program"

2010

- Guangdong Provincial Government awarded "Guangdong Province Advanced Collective in Vocational and Technical Education Work"

05. 2026 LIST OF ADMISSIONS MAJORS

Note: All tuition fees are in CNY (Yuan) per academic year. Students from rural households (including township/county level) and qualifying urban disadvantaged families receive direct tuition waivers of 3,500 or 4,300 yuan/year.

A. 3-Year Intermediate Technician Program (Entry after Junior High School)

Faculty	Program (Direction)	Quota	Tuition (Subsidized)	Tuition (Full)	Campus

D. International Education College Programs

Program	Quota	Tuition (Subsidized)	Tuition (Full)	Campus
E-Commerce (Cross-Border, Dual-Track International)	20	46,300	49,800	East
Computer Networking (Dual-Track International)	20	45,500	49,800	East
Animation Design (Dual-Track International)	20	46,300	49,800	East
Business Foreign Language (Bilingual)	20	26,300	29,800	East
Mechatronics (Bilingual)	20	26,300	29,800	East
Accounting (Bilingual)	20	26,300	29,800	East
Business Foreign Language (Overseas Pathway)	20	73,765	77,265	East

International dormitory (4-person luxury room): 8,500–9,500 yuan/year. Equipped with A/C, washing machine, brand mattress, multi-filter drinking water machine, private bathroom and shower.

FEES, FINANCIAL AID & IMPORTANT NOTES

- 1. Tuition Waiver:** Students from rural/township households and qualifying urban disadvantaged families receive direct tuition waivers of 3,500 yuan/year or 4,300 yuan/year (per Guangdong Provincial Department of Finance regulations).
- 2. National Financial Aid:** Eligible students may apply for 2,300 yuan/year in national financial aid, claimable for up to 3 consecutive years.
- 3. National Scholarship:** Full-time Grade 2 and above outstanding students may apply for 6,000 yuan/year national scholarship.
- 4. Dormitory Fees:** East Campus: 2,500 yuan/year. Xinnan Campus female: 1,800 yuan/year. Xinnan Campus male: 1,800–2,300 yuan/year.
- 5. Medical Insurance:** 413 yuan/year (Guangzhou Urban Residents Basic Medical Insurance).
- 6. Textbooks:** 500 yuan/year per program (excess refunded, shortfall topped up).
- 7. Uniforms:** Summer (3 sets) and winter (2 sets + 1 jacket) — purchased by students upon enrollment.
- 8. Dormitory Facilities:** All dorms equipped with A/C, solar water heater, broadband. 6S management. Free water: 4 m³/month; free electricity: 8 kWh/month per student.
- 9. Bank Transfer Details:** Account Name: Guangdong Lingnan Modern Technician College Account No.: 44064801040000220 Bank: Agricultural Bank of China, Guangzhou Development Zone Branch Note: Please specify student name and major on remittance slip.
- 10. Skills Certification:** Each student is entitled to one vocational skills level assessment exam during their studies. Passing grants a nationally recognized vocational skills certificate.
- 11. Social Security Card:** All new students must apply for and activate the financial function of their social security card. Enquiries: (area code) + 1233312.
- 12. Policy Changes:** If the content described in this prospectus or relevant national policies change, the notification from the competent authority shall prevail.

Admission Requirements & Enrollment Procedures

- Graduates (current and past) and young people nationwide with junior high school (or equivalent) qualifications may apply for the Intermediate Technician program.
- Graduates (current and past) and young people nationwide with senior high school, vocational school, or equivalent qualifications may apply for the Advanced Technician and Pre-Technician programs.
- Applicants must present their diploma, household registration booklet (hukou), and ID card, and submit one photocopy of each (for tuition waiver and financial aid verification). Students may register directly at the school, or apply by phone, fax, or online.
- For enrolled students approved by the Guangdong Provincial Department of Human Resources and Social Security, household registration may be voluntarily transferred to Guangzhou during the study period (free of charge).

10. ADVANTAGES OF TECHNICIAN COLLEGE GRADUATES

Equal Opportunities for Vocational School Graduates

Article 53 of the Vocational Education Law of the People's Republic of China (effective May 1, 2022) stipulates: Vocational school students enjoy equal opportunities with students from regular schools of the same level in further education, employment, and career development.

In professional title evaluations: graduates of advanced technician programs are treated equally with associate degree (college) graduates; graduates of pre-technician programs are treated equally with bachelor's degree graduates.

Military Enlistment Advantages

Per regulations jointly issued by 8 ministries including the Ministry of Education and the General Staff Headquarters on March 7, 2024, graduates of advanced technician schools and technician colleges are now included in the scope of military non-commissioned officer recruitment. Starting salary is equivalent to full-time college/bachelor's graduates. Technician college students have stronger professional skills and greater development opportunities in the military.

Civil Service Examination Eligibility

The Ministry of Human Resources and Social Security issued a notice that vocational school graduates (including technician school graduates) may participate in open recruitment for public service units. For positions with vocational skills level requirements, educational requirements may be reduced or waived.

11. FACULTY INTRODUCTIONS

FACULTY OF ELECTRONIC COMMERCE

18 yrs	3,000+	300+	9,000+
Key program	Enrolled students	Partner enterprises	E-commerce talents trained

Lingnan-JD Digital Commerce Industry College

The Lingnan-JD Digital Commerce Industry College is JD.com's first digital commerce industry college in South China, and JD's flagship industry college in the Greater Bay Area. It aims to train large numbers of innovative AI+ high-skilled talents needed for the digital transformation of traditional industries in the Greater Bay Area.

E-Commerce

Core Courses: AI customer service, AI+ short video production, AI+ new media operations, AI+ live streaming. Career Positions: Live-streaming host, operations manager, short video producer, e-commerce operator, customer service agent, network promoter. Certificates: E-commerce specialist (online), national computer certificate.

E-Commerce (China Travel Class)

Specialty: Oriented towards 500 top travel e-commerce enterprises. Core Courses: Social media marketing, AI+ new media, OTA store operations, travel short video production. Career Positions: Travel e-commerce operator, live-streaming host, new media manager, OTA store manager, travel BD, route planner. Certificates: E-commerce specialist, national computer certificate, tour guide certificate.

Cross-Border E-Commerce

Specialty: AI digital trade gateway, 'one student one store' hands-on teaching. Core Courses: Cross-border e-commerce operations, AI+ overseas network promotion, international social media marketing. Career Positions: Cross-border e-commerce operations specialist, overseas social media marketer, cross-border supply chain specialist. Certificates: Senior e-commerce specialist (cross-border), national computer certificate.

Supply Chain Operations (JD Class)

Specialty: Leverages JD.com's full supply chain and industry project resources. Core Courses: Supply chain management practice, procurement & supply management, smart warehouse management, supply chain data analysis. Career Positions: Purchasing specialist, supply chain operator, logistics coordinator, data analyst. Certificates: Certified supply chain manager, national computer certificate.

Featured Partner Companies

JD.com, Kangaroo Mommy, Wang Xiaodu, China Tourism Group, Huimei Group, VIPShop, and 300+ other enterprises.

FACULTY OF CREATIVE ARTS

20 years of deep engagement in the cultural creative field. The faculty covers animation design, film & TV media, interior design, industrial design, multimedia production, fashion making, covering 3 hot industries: animation, short video, and smart home.

Animation Design & Production

Core Courses: Comic illustration, digital drawing techniques, AI animation production, 3D cartoon character creation, CG illustration. Career Positions: 2D animator, 3D modeler, 3D animator, IP product designer, VR scene designer. Expected Salary: 5,000–12,000 yuan/month.

Film & TV Media (Film Production Direction)

Core Courses: Digital cinematography, virtual photography, short video shooting, AI visual effects compositing. Career Positions: AI creator, short film director, virtual film technician, AI video editor. Salary: 6,000–15,000 yuan/month; freelance projects 50,000–200,000 yuan.

Interior Design

Core Courses: 3D cloud design, technical drawing, 3D rendering, residential & commercial space design. Career Positions: Smart home designer, full-home customization designer. Salary: 5,000–10,000 yuan/month.

Industrial Design

Core Courses: Product sketch, fashion product design, smart home design, furniture design. Specialty: Integrated with Sunvega training, AI product design, 3D rendering + full customization. Certificates: Furniture designer, national computer certificate.

Multimedia Production

Core Courses: AI visual design, photo/video shooting, video post-production, interactive UI design, C4D product exterior design. Career Positions: Video editor, short video planner, live-streaming scene architect, AI creative producer. Salary: 5,000–8,000 yuan/month.

Fashion Making & Marketing

Core Courses: Fashion illustration, pattern making, garment construction, fashion CAD, traditional fashion elements design. Career Positions: Fashion brand owner, COSPLAY designer, TikTok fashion stylist, high-end garment maker. Certificates: Garment pattern maker, national computer certificate.

SCHOOL OF ENTREPRENEURSHIP

Programs: New Media Operations, Accounting, Business Foreign Language, Legal Affairs (Judicial Police). 6,000+ skilled talents trained, 62+ partner enterprises, 10,000+ entrepreneurial talents, 158+ major award winners.

New Media Operations

Core Courses: New media operations & promotion, project practice, short video shooting & editing, data analysis. Career Positions: New media manager, short video editor, content planner, TikTok/Xiaohongshu SEO specialist, IP blogger. Salary: 8,000–15,000 yuan/month.

Accounting

Core Courses: Financial accounting practice, internet tax practice, multi-post accounting training, commercial bank management. Career Positions: Cashier/accountant in enterprises, accounting firms, financial institutions, government agencies; financial information management; investment advisory. Certificates: Human resource manager, national computer certificate.

Business Foreign Language

Core Courses: Business English/foreign language, international trade basics, business communication & etiquette, secretarial practice, enterprise HR. Career Positions: Receptionist at foreign companies, trade fairs, export companies; business document writer; administrative assistant. Certificates: AI trainer.

Legal Affairs (Judicial Police)

Core Courses: Legal writing, speech & debate, contract law, modern enterprise management, legal negotiation, policing administration, constitutional/civil/criminal/administrative law, fire safety, commercial law application. Career Positions: Legal consulting at law enforcement agencies, notary offices, law firms, arbitration institutions. Certificates: Network and information security management officer.

FACULTY OF INTELLIGENT MANUFACTURING

6,000+ sqm training area, 25 professional training rooms, 62 integrated classrooms, 86 campus-enterprise internship bases. Adheres to the talent cultivation model of 'strong foundation, emphasis on practice, keeping up with frontiers.'

Mechatronics / Industrial Robot (Siemens Industry College)

Specialty: The 'integration hub' of intelligent manufacturing systems, focusing on mechatronic fusion and system integration. Deep alignment with Siemens ecosystem enterprises. Core Courses: Siemens S7-1200/1500 PLC, servo control, HMI, smart manufacturing system integration, industrial robot programming & debugging, robot fault diagnosis. Career Positions: Automation systems integration engineer, PLC programmer, digital twin technician, 3D modeling designer, robot application engineer. Certificates: High/low voltage electrician special operation license, industrial robot system operator/maintainer (intermediate/advanced).

Drone Application Technology

Specialty: Focuses on low-altitude economy core track, mastering drone control and inspection skills, covering multiple industry application scenarios. Core Courses: Drone assembly & debugging, aerial photography practice, crop protection techniques, agricultural/surveying field practice. Career Positions: Drone pilot, drone repair technician, surveying technician, drone patrol operator. Certificates: CAAC drone pilot, drone repair technician.

New Energy Vehicle Detection & Repair

Specialty: Partners with Xpeng, Geely, BYD, and other NEV brands. Core Courses: Battery & management system detection, pure electric vehicle control system repair, NEV air conditioning fault detection, smart connectivity technology. Career Positions: NEV repair technician, NEV inspection engineer, smart network systems engineer. Certificates: Vehicle repair technician, used car appraiser.

Vehicle Inspection & Repair

Specialty: China has the world's largest vehicle fleet; this program focuses on automotive after-sales service. Core Courses: Vehicle engine structure & repair, chassis systems, electrical equipment fault diagnosis, engine electromechanical control system. Career Positions: Vehicle repair technician, vehicle inspector, after-sales service consultant. Certificates: Vehicle repair worker (intermediate/advanced), used car appraiser.

Fire Engineering Technology (Guangdong Provincial Quality Cultivation Program)

Specialty: Students can practice before graduation, relying on high-standard internal and external training bases. Core Courses: Fire combustion science, fire facility & equipment, fire water supply & smoke control, fire facility operations. Career Positions: Fire engineering design engineer, fire project manager, fire safety evaluation consultant, emergency responder. Certificates: High/low voltage electrician special operation license,

working-at-height license, electrician intermediate/advanced, fire safety manager.

Industrial Robot Application & Maintenance

Specialty: Integrates industrial robot operation, maintenance, programming, and system integration. Core Courses: Robot mechanical assembly & maintenance, robot electrical control & sensing technology, automated unit integration & simulation. Career Positions: Robot application engineer, robot debugging engineer, robot O&M; engineer. Certificates: Industrial robot system operator/maintainer, electrician certificates.

FACULTY OF INFORMATION TECHNOLOGY

Co-built with Huawei Technologies Co., Ltd. and other leading enterprises. Relies on Huawei's leading ICT technology and full industry-chain ecosystem to comprehensively practice industry-education integration. The faculty upholds the philosophy of 'promoting learning through competition, promoting teaching through competition.'

AI Technology Application (Huawei Co-built Class)

Specialty: Joint cultivation with Huawei, deep integration with Huawei Ascend AI and large AI model courses. Core Courses: Large model AIGC application training, machine vision practice (Huawei Ascend AI), intelligent car practice, intelligent robotic dog practice. Career Positions: AI trainer, AI data service engineer, AI system integration & O&M; engineer. Certificates: AI trainer, computer programmer, Huawei HCIA/HCIP.

Computer Programming (Huawei HarmonyOS Development)

Specialty: Real HarmonyOS hardware & software project training; graduates prioritized for entry into Huawei HarmonyOS ecosystem enterprises. Core Courses: ArkTS language, HarmonyOS operating system, HarmonyOS mobile application development. Career Positions: HarmonyOS mobile app developer, HarmonyOS IoT engineer, software test engineer. Certificates: Computer programmer, AI trainer, Huawei HCIA/HCIP.

Computer Networking (Huawei 5G Communication)

Specialty: Deep integration with Huawei 5G technology ecosystem, campus co-built 5G smart communication lab. Core Courses: 5G wireless network technology, 5G mobile network planning & optimization, 5G base station function verification testing. Career Positions: 5G network engineer, communications O&M; engineer, network optimization engineer. Certificates: Information and communications network operation manager, network & information security manager, Huawei HCIA/HCIP.

Computer Networking (Huawei Network & Information Security)

Specialty: Full integration of Huawei security certification curriculum; enterprise-certified instructors co-teach with school teachers. Core Courses: Database security training, network attack & defense operations, Huawei certification courses (HCIA-Security), enterprise network management & security training. Career Positions: Network security engineer, security O&M; engineer, security service engineer. Certificates: Network & information security manager, Huawei HCIA/HCIP.

Computer Programming

Specialty: Dual-drive teaching of 'competition + project practice'; achieving integrated training of 'competition results → project deployment → positional competency.' Core Courses: JAVA programming, WEB front-end development, mini-program development, comprehensive projects, software testing. Career Positions: Front-end development engineer, software test engineer. Certificates: Computer programmer, AI trainer, national computer certificate.

Computer Networking

Specialty: Real project teaching throughout; comprehensive hands-on training covering network equipment configuration, server clustering, and other core skills. Career Positions: Network administrator, network O&M; engineer, system equipment maintainer. Certificates: Information and communications network operation manager, national computer certificate.

Industrial Internet & Big Data Application

Specialty: Building a full-chain training system of 'industrial data collection → edge computing → network security operations.' Core Courses: Sensors & detection technology, programmable controller & applications, industrial internet maintenance technology, industrial internet instrumentation. Career Positions: Industrial data engineer, big data analyst, industrial internet network O&M; engineer. Certificates: Information and communications network operation manager, national computer certificate.

FASHION BEAUTY ACADEMY

The Fashion Beauty Academy leads profound innovation in the fashion beauty and arts education fields. It has formed a diversified education system covering 4 major programs with 7 directions: Beauty Care (including Light Medical Aesthetics), Image Design (Film Makeup, Hairdressing, Anime Makeup), Dance Performance, and Music.

Deep Campus-Enterprise Cooperation Partners

Hong Kong Lianda Beauty Group, Guangdong Qinfang Film & Culture Co., Guangdong Fode Muchun Sports Culture Co., Guangdong Huanya Health Technology Co., Guangzhou Danman Biotech Co.

Notable Awards

- Image Design specialty won multiple international competition awards at CIDF, China-Russia-Korea International Beauty Skills Competition, Global Beauty Competition, etc.
- Dance Performance students won 16 special awards at the 2025 World Ice Ball Federation Star Open Competition.
- Dance Performance students won 20 awards at the 2025 Guangdong Provincial Youth Sports Dance Competition.
- Music students won 9 awards in the 'Solo Singing' performance at national sports cultural arts exhibitions.

Image Design (Anime Makeup Direction)

Specialty: Deep immersion in the pan-secondary dimension field; master full character styling skills for animation, games, cosplay. Career Positions: Professional Coser stylist, special effects makeup artist, prop designer, ACG industry instructor. Market: Secondary dimension & character economy scale exceeds 200 billion yuan; professional talent is scarce.

Image Design (Film Makeup Direction)

Specialty: Film set training with co-built film company bases; participate in film, TV, and variety show styling. FACULTY OF HEALTH AND NURSING

With the acceleration of population aging and the promotion of the 'Healthy China' strategy, the health and nursing industry is entering a golden period of development. The school has built a Rehabilitation Building, a TCM Industry Base, and a Pet Medical Care & Nursing Center.

Key Achievements

- TCM program selected for the development team of the 'National Skilled Talent Training Study-Work Integrated Curriculum Standards'
- TCM program selected as a Phase 3 study-work integration construction program for national technician schools
- Nursing program classrooms rated as national and Guangdong provincial quality classrooms
- Nursing program rated as Key Program of Guangdong Provincial Technician Schools

Unique Practical Training Platforms

- Lingnan Health Valley Nursing Home: China's only technician school with an on-campus nursing home; a model for elderly care training and service in Guangdong.
- Qingya Dental Clinic: China's only technician school with an on-campus clinical demonstration clinic.
- Guangzhou Smart Healthy Aging Equipment Exhibition Center: Modern smart exhibition hall with government-campus-enterprise collaboration.
- Pet Hospital: Planned joint construction with Fuhuai for on-campus pet hospital.

Traditional Chinese Medicine (TCM)

Prospect: TCM market scale exceeds 1.2 trillion yuan; talent gap over 200,000. Career Directions: Pharmacy retail, pharmaceutical e-commerce, TCM dispensing, TCM inspection, TCM preparation production, TCM processing, TCM warehousing. Specialty: Fully adopts study-work integrated teaching; TCM industry base integrates teaching, industry-education integration, and commercial development.

Nursing

Prospect: Estimated nursing industry to exceed 12 trillion yuan by 2026; shortage of 80,000+ skilled nursing professionals. Career Directions: Medical nursing services, elderly care, community nursing, mother & infant care. Specialty: Supported by Lingnan as foundation; deeply integrated with the industry; 'nursing home within campus, campus within nursing home' model.

Rehabilitation & Healthcare

Prospect: Rehabilitation demand growing 12%/year; TCM rehabilitation, massage therapy, and post-partum recovery in high demand. Career Directions: Rehabilitation care, TCM rehabilitation, massage therapy, special needs children education, post-partum recovery. Specialty: 'Teaching-Learning-Doing-Serving' four-dimensional education system; real working environments.

Pet Medical Care & Nursing

Prospect: China's pet market exceeds 200 billion yuan; demand for pet therapy professionals growing 20%/year; shortage of 250,000+ professionals. Career Directions: Veterinary assistant, pet nurse, pet groomer, pet product sales, self-employed pet service business. Specialty: Standardized pet hospital on campus; clinical practice teaching.

Dental Medicine Technology

Prospect: China's dental medical market exceeds 1,500 billion yuan; shortage of 180,000+ professionals. Career Directions: Dental prosthetics production, digital dental technology design, dental equipment maintenance, dental clinic technician. Specialty: Real digital dental teaching clinic on campus; scenario-based teaching aligned with real industry workflows.

Smart Elderly Care Service & Management

Prospect: Shortage of 500,000+ elderly care professionals; 2026–2030 will be the peak demand period. Career Directions: Elderly companionship, health management, service management, product assistant. Specialty: New program combining 'AI + silver economy'; scenario-based teaching in real elderly care industry environments.

FACULTY OF CULINARY ARTS

Based on the 'Guangdong Provincial Cantonese Chef Training Base,' the Lingnan Culinary College has successfully built a standardized training base, an industry-leading teaching team, and a campus-enterprise cooperation development model.

- Cantonese Heritage + International Vision: from classic Guangfu cuisine and Chaoshan flavors to Western culinary arts; theory and practice, tradition and innovation.
- Hands-On Practice, Course-Competition-Certification Integration: real kitchen training at star hotels, provincial culinary competitions, direct vocational certification.
- Master Chef Guidance: industry-leading chefs teach directly.
- Campus-Enterprise Co-Education: deep cooperation with Jade Hilton, Guangzhou Four Seasons Hotel, Dongjiang Fishing Village, Fengshen Shuixi, and other renowned enterprises.

Cooking (Chinese Cuisine)

Specialty: Study 8 major Chinese cuisines; fused with modern cooking technology; high-frequency real practice every week covering ingredient selection, processing, cooking, and banquet design. Career Positions: Star hotel head chef, restaurant chain technical director, food blogger. Salary: Fresh graduates 5,000–8,000 yuan/month; experienced chefs 200,000+ yuan/year! Certificates: Chinese cuisine cook, pastry chef.

Cooking (Pastry & Baking)

Specialty: Master both Chinese and Western pastry; top-grade smart ovens and provincial-level pastry lab; competition promotion every year. Career Positions: High-end hotel pastry chef, private custom dessert studio owner, food product developer. Industry: Baking market exceeds 300 billion yuan; 'light food + value economy' creating new positions. Certificates: Chinese/Western pastry chef, relevant food industry certificates.

INTERNATIONAL EDUCATION COLLEGE

Founded in 2019. The International Education College actively introduces rich overseas educational resources and high-quality teaching concepts. Faculty strength: 75% of teachers have overseas study backgrounds; 83%+ hold master's degrees or above. Cooperates with institutions and enterprises in 'Belt and Road' countries including Singapore, Malaysia, USA, Canada, Australia, UK, Thailand, Japan, and more.

Featured Programs

- E-Commerce (Cross-Border Direction)
- Computer Networking
- Animation Design & Production
- Business Foreign Language
- Mechatronics
- Accounting

Three Program Tracks

Dual-Track International Class (Most Popular)

Builds a 'multi-campus, multi-program' international cultivation model. Students can flexibly choose: proceed overseas to study abroad, OR connect to domestic university enrollment through the 3+Certificate pathway. Foreign language courses 10+ hours/week through 'listening, speaking, reading, writing' approach. Official cooperation agreements signed with 30+ overseas universities and enterprises. Students guided individually to apply to their ideal university.

Bilingual Fusion Class

Deepens second language learning while consolidating professional foundation and core skills; aims for international technical certificates. Students use professional competence and multilingual advantage to enter domestic and international job markets. Opportunities to work abroad (Japan/Singapore/Malaysia/Dubai); international technical certificates to lock in positions in advance.

Overseas Pathway Program

Premium international education project. Curriculum officially authorized and certified, recognized in 140+ countries, covering UK, Australia, Canada, New Zealand, and other major study destinations. Students who meet academic requirements are guaranteed admission to at least one overseas university — including UCL, University of Manchester, University of Sydney, and other QS Top 100 universities. Project-based teaching, real task-driven, comprehensive assessment mechanism.

Partner Universities Abroad

- London School of Economics and Political Science (QS #45, 2025)
- University of Birmingham (QS #80, 2025)
- Northumbria University (QS #126, 2025)
- Curtin University (QS #174, 2025)
- University of Newcastle (QS #179, 2025)
- Queensland University of Technology (QS #213, 2025)
- University of Huddersfield (QS #501, 2025)
- Taylor's College (QS #251, 2025)
- Wellington Institute of Technology (QS #123, 2025)
- Japan University of Economics (QS #126, 2025)

31. CAMPUS LIFE

Student Organizations & Associations

The school currently has 25 cultural & sports organizations and 29 professional associations. Every day, at least 3 organizations simultaneously carry out 'second classroom' activities to enrich students' extracurricular cultural life.

Arts & Culture Organizations

- Lingnan Lion Dance Association
- Lingnan Yingge Dance Association
- Lingnan "Xiaoyan" Theatre
- Skywalk Street Dance Association
- Lingnan Martial Arts Association
- Lingnan Taekwondo Association
- Lingnan Calligraphy Association
- Wanlai Chorus Association
- Artistically Accomplished Vocal Singing Association

Sports Organizations

- Lingnan Modern Football Association
- Volleyball Association
- Xingghuo Basketball Association
- Table Tennis Association
- Pickleball Association
- Rhywing Badminton Association
- Athletics Association
- General Sports Association
- Lingnan Running Team
- Lingnan Wu Shu Association

Educational & Service Organizations

- Scholarly Study Association
- Qimeng Mathematics Club
- Ideological Politics Reading Club
- National Flag Honor Guard
- Hundred YOUNG Youth Health Association
- Part-Time Work Association

29 Professional Associations (Selected)

- Electronic Technology Innovation Association
- Computer IT Association
- E-Commerce Entrepreneurship Association
- Oral Health Association
- Pet Guardian Association
- Creative Beauty Association
- International Exchange Association

- New Media Association
- Lingnan Live-Streaming Team
- Health Association
- Cross-Border Business Alliance
- Lingnan Rehabilitation Association
- Nursing Association
- Lingnan TCM Association
- Lingnan Culinary Association
- Digital Media Center
- Digital New Retail Association
- TCM Science Popularization Association
- TCM Wellness Tea Association
- Mechatronics Innovation Association
- New Media Creative Studio
- Lingnan Automobile Association
- Lingnan Drone Association
- Lingnan Fashion Creative Studio

Year-Round Campus Activities

March	Most Beautiful Volunteer Selection
April	Commemorating Martyrs; Becoming a Good Youth of the New Era
May	May Fourth Youth Spirit Vitality
June	Grateful Graduation Season
July	Celebrating the Founding of the Party
September	National Martyrs Day
October	Celebrating National Day
November	Fire Safety Month
December	HIV/AIDS Prevention Month

Volunteer Service Activities

- Huangpu Marathon volunteer service
- Elderly home visit volunteer service
- Learn from Lei Feng volunteer service
- Summer vacation 'Three Trips to the Countryside' social practice activities

35. COLLEGE-ENTERPRISE COOPERATION

The school always makes graduate internship and employment its core mission, comprehensively promoting high-quality internship and employment for graduates through precise policies, deepened campus-enterprise cooperation, and optimized services.

Three Industry Benchmark Partnerships: JD, Huawei & Siemens

Lingnan & JD.com

South China's first Digital Commerce Industry College; JD Education Research Institute (Greater Bay Area) officially established.

Lingnan & Huawei

Comprehensive cooperation agreement signed; Lingnan & Huawei Industry College formally unveiled.

Lingnan & Siemens

Cooperation agreement signed; Lingnan & Siemens Intelligent Manufacturing Industry College co-built.

Major Corporate Partners

Huawei, JD.com, Tencent, Siemens, Xpeng Motors, Alibaba, China Southern Airlines, ZTE, VIPShop, Midea, Skyworth, China Construction Bank, McDonald's, SF Express, Sinopec, OSRAM, Perfect Diary, iSoftStone, Westlink, GRG Banking, CVTE, Anker Technology, HSBC, Nvidia, and 100+ more enterprises in the Pearl River Delta region.

Other Campus-Enterprise Cooperation Highlights

- Midea Group awarded school the 'Mechatronics Professional Talent Training Base' plaque
- Aofer awarded school the 'Animation Design & Production Professional Talent Training Base' plaque
- China Tourism Group awarded school the 'E-Commerce Professional Talent Training Base' plaque
- Fuhuai Medical awarded school the 'Pet Medical Care & Nursing Professional Talent Training Base' plaque
- Signed deep industry-education integration projects with Sunvega, Heyuan Medical, Ruodong Dynamics
- Signed campus-enterprise talent cultivation agreement with Xpeng Motors

40. OPTIMAL EMPLOYMENT

Employment Guarantee

The school always adheres to campus-enterprise cooperation as its guiding philosophy for education, oriented towards employment. It has established deep cooperative relationships with renowned enterprises including JD.com, Huawei, Siemens, ZTE, GRC Banking, Midea, Xiangxue Pharmaceutical, Nanfang Digital, and VIPShop.

Long-term talent supply-demand relationships have been established with 3,000+ employing units and industry associations in the Pearl River Delta region, with 1,000+ off-campus professional practice bases established, forming a powerful employment network.

"1589" Employment Service System

"1" — One Conceptual Shift

From "career guidance" to "career services" — a fundamental shift in approach.
